Definition of the Product Group	
This requirement profile refers to clothing, textile accessories (like scarfs, gloves, hats and caps) or home textiles for the normal everyday use. For special products, e.g., occupational or protective clothing other requirements must be taken into consideration when indicated.	
Disclaimer:	
<p>This requirement profile was generated on the basis of appropriate specific legally regulated requirements.          The substances or groups of substances are specifically named in laws, ordinances, or other regulations and are subject to corresponding limit values.          In addition, a product that is placed on the market must be safe for the user and the environment.          Therefore, further national and international legal regulations that regulate product safety and those superordinate, must be considered (for example ProdSG, General Product Safety Directive 2001/95/EC). This may lead to further testing requirements regarding additional substances. This is product specific and can be clarified based on a detailed assessment of components and materials.          The processing of binding material and preparations may also lead to exceeding the requirements imposed on the components and materials.          Furthermore, the requirements relate only to the product groups presented.          Each individual product requires an individual professional evaluation.          It may be that with the respective product, several product groups can be relevant and further requirements may apply.          Therefore, in case of any overlapping of product groups (eg: product group footwear and product group electronics), it must be ensured that additional standards and regulations must be considered and strictly adhered to.          It is based on legal requirements as well as the best available technology and expertise of Hohenstein Textile Testing Institute GmbH &amp; Co. KG.          Only the original laws, regulations, and further provisions are legally binding.          If the data from requirement profiles of Hohenstein Textile Testing Institute GmbH &amp; Co. KG is used further, the use of the Hohenstein Textile Testing Institute GmbH &amp; Co. KG logo may not be used without explicit approval of the Hohenstein Textile Testing Institute GmbH &amp; Co. KG.          In addition, Hohenstein Textile Testing Institute GmbH &amp; Co. KG is not liable for the accuracy and presentation of any data used further from its requirement profiles</p>
