

KATAG Supplier Polybag Instruction (Last Updated: 01 July 2026)

Composition of Polybags

We only accept 100% monomaterial polybags (single material only) made from the following materials:

Material	Abbreviation	Thickness	Mark
High-density Polyethylene	HDPE	30 - 50 µm	
Low-density Polyethylene	LDPE	15 - 25 µm	
Polypropylene	PP	30 - 40 µm	

The supplier must provide material documentation, declarations of conformity, or test reports upon request.

All materials must comply with applicable EU regulations (including PPWR and REACH), specifically in accordance with the Substances of Very High Concern (SVHC) list under the EU's REACH Regulation: <https://echa.europa.eu/de/registry-of-svhc-intentions>

Polybags must be reusable. Please ensure this, for example, by using an adhesive strip that allows the polybag to be resealed after opening.

KATAG recommends polybags that meet the following dimensions

Size	Width	Height	Unloaded weight
S	20 cm	35 cm	6 g
M	30 cm	45 cm	11 g
L	60 cm	45 cm	22,5 g
XL	70 cm	50 cm	29,5 g
XXL	70 cm	70 cm	41 g

All polybags must be marked with the following Information:

- **WARNING / WARNHINWEIS**

WARNING: To avoid danger of suffocation, keep this bag away from babies and children.

WARNUNG: Erstickungsgefahr. Bitte von Babys und Kindern fernhalten.

- **PLEASE REUSE OR RECYCLE ME**

- **Contact Information:**

KATAG AG (Brand & Packaging Producer acc. PPWR)

Stralsunder Straße 5, 33605 Bielefeld

Germany

Quality@katag.net

- **Polybag ID** - depending on the Polybag-material and Size:

Material	Polybag ID
HDPE	P-000000001-Size
LDPE	P-000000002-Size
PP	P-000000003-Size

- **Examples:**

Material	Size	Polybag-ID
HDPE	XL (70cm x 50cm)	P-000000001-7050
LDPE	S (20cm x 35cm)	P-000000002-2035
PP	L (60cm x 45cm)	P-000000003-6045
PP	No standard size (45cm x 45cm)	P-000000003-4545
